MEN-3489 (5 SP)
Write section about software naming in Update Modules chapter
MEN-3499 (3 SP)
Write section about software naming in Application Updates chapter
MEN-3853 (0 SP)
[internal for release reporting]: Full vs partial update reporting
MEN-4051 (2 SP)
artifact_provides and artifact_depends are not documented in Artifacts structure
MEN-3479 (21 SP)
Implement clears_artifact_provides field in mender-artifact
MEN-4109 (8 SP)
Artifacts with dotted filenames can not be used in deployments
MEN-3480 (1 SP)
Update deployments to mender-artifact with "clears_artifact_provides" support
MEN-3074 (5 SP)
Implement "show-provides" command on client
MEN-3075 (8 SP)
Handle clears_artifact_provides in mender client
MEN-3485 (8 SP)
Design UI for displaying software names and versions
MEN-4050 (3 SP)
Make endpoints that return Artifact objects include "clears_artifact_provides" information
MEN-4001 (3 SP)
Inventory PATCH endpoint needs a PUT endpoint so that we can erase absent inventory fields
MEN-3076 (5 SP)
"software-version" support for "write rootfs-image"
MEN-3073 (2 SP)
Inventory script which sends artifact_provides data in client inventory update
MEN-3077 (5 SP)
"software-version" support for "write module-image"
MEN-3486 (5 SP)
Implement UI for seeing software versions of devices
MEN-3487 (5 SP)
Implement UI for seeing software versions of artifacts
MEN-4003 (1 SP)
Switch client to use new inventory/device/attributes PUT endpoint
MEN-3482 (5 SP)
Change rootfs_image_checksum over to use namespaced provides
MEN-3478 (3 SP)
Test one of the partial update artifact_provides in the test_inventory test
MEN-3481 (2 SP)
Support "--software-*" flags in our Open Source artifact generators
MEN-4054 (2 SP)
Fix UI screenshot TODOs in feature-partial_updates branch
MEN-3648 (3 SP)
Make it possible to test unreleased versions of mender-binary-delta
MEN-3490 (3 SP)
Merge all partial_updates feature branches in main product
MEN-3088 (5 SP)
mender-binary-delta-generator: make artifact with artifact_provides->rootfs-image.version
MEN-3484 (3 SP)
mender-binary-delta: Support rootfs-image.checksum field
MEN-3483 (5 SP)
mender-binary-delta-generator: Switch generator to write rootfs-image.checksum references
